SUP 5252.215-9401 EVALUATION OF FIRST ARTICLE TESTING (JUNE 2003)

(a) Offerors are advised that the contract awarded as a result of this solicitation will require first article testing. This requirement may be waived by the Contracting Officer when supplies identical or similar to those called for have previously been delivered by the offeror and accepted by the Government. Therefore, offerors can submit alternative offers, one including testing and approval and the other excluding testing and approval. If the Government waives the requirement for first article unit(s), test plans, testing and test report(s) for eligible offerors the price set forth in paragraph (g) will be used in evaluating offers. In addition, all provisions relating to first article testing will be deleted from the resulting contract.

(b) Offerors shall identify these identical or similar supplies by the contract number, agency, national stock number, contract award date, and contract delivery date.

<u>Contract Number</u>	<u>Agency</u>	<u>NSN</u>	<u>Contract award date</u>	<u>Contract delivery date</u>
------------------------	---------------	------------	--------------------------------	-----------------------------------

(c) (X) The Government is responsible for first article testing under this contract. The cost to the Government of this testing will be a factor in the evaluation of offers, as it will be added to the offers requiring first article testing. The estimated cost of this testing is \$ 85,136.00.

() The contractor is responsible for first article testing under this contract.

(d) The approved first article _____ serves as a manufacturing standard.

(e) Earlier delivery, if required in case of waiver of first article, shall not be a factor in the evaluation for award.

(f) The prices for first articles and first article tests in relation to production quantities shall not be materially unbalanced, if first article test items or tests are to be separately priced.

(g) Unit price offered if First Article is waived: \$_____.

PRODUCTION LOT TEST SAMPLES (GOVERNMENT TESTING)

1. Test samples are required from each production lot and are to be submitted in accordance with specification OES-3039 Revision D.

a. A production lot shall consist of 2,880 to 20,160 flares.

b. Production lot test samples are in addition to the production lot quantity and shall be furnished and shipped by the contractor to the testing activity set forth below at no additional charge to the Government. The documentation accompanying the production lot test samples shall contain the contract number, item and lot number identification. The samples shall be selected, at random, from each production lot, by the Government's Quality Assurance Representative. Sample units removed for testing from different lots shall not be commingled.

c. Delivery. The production lots must be manufactured and presented to the Government Quality Assurance Representative to select the production test samples. The samples shall be selected, at random, from each production lot, by the QAR within 5 calendar days after presentation of the lot. All other contractual requirements, such as acceptance, shipment, and payment will not be accomplished until the production lot test samples have been tested and approved and contractor so notified in writing from the contracting officer. Acceptance in Wide Area Workflow (WAWF) shall be considered as meeting the required delivery schedule in section F. Upon receipt of written notice accepting a production lot, shipment request to DCMA Transportation Office shall be made within 15 days.

d. The following activity will conduct the IR portion of production lot testing:

Naval Surface Warfare Center Crane (N00164)

NMC DET China Lake
Attn: Rod Oberlander
Building 31060

e. The Contracting Officer shall, by written notice to the contractor within 45 calendar days after receipt of the production lot test samples by the Government Testing Activity, approve, conditionally approve or disapprove the production lot test sample (s). The notice of approval or conditional approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of conditional approval shall state any further action required of the contractor. A notice of disapproval shall cite reasons therefor. Contractor shall not make shipment of the production lot until receipt of written notification of approval from the Procuring Contracting Officer.

f. If the production lot test sample(s) is disapproved by the Government, the Contractor may be required, at the option of the Government, to submit an additional production lot test sample(s) for test. After each notification by the Government to submit an additional production lot test sample(s), the Contractor shall at no additional cost to the Government make any necessary changes, modifications, or repairs to the test samples or select another test sample for testing. Such additional test samples shall be furnished to the Government under the terms and conditions and within the time specified in the notification. The Government shall take action on this test sample within the time limit specified in 1e above. The costs of additional test sample approval tests and all costs related to such tests shall be borne by the Contractor. Upon approval of the production lot test sample(s) submitted, the Contracting Officer may equitably adjust the delivery schedule of the contract for only the lot represented by such samples. The Government reserves the right to require an equitable decrease of the contract price for any extension of the delivery schedule necessitated by additional tests, or for any additional costs to the Government related to additional approval tests.

g. If the Contractor fails to deliver any production lot test sample(s) for test within the time or times specified, or if the Contracting Officer disapproves any production lot test sample(s), the contractor shall be deemed to have failed to make delivery within the meaning of "Default" clause of this contract, and this contract shall be subject to termination for default; provided, that failure of the Government in such an event to terminate this contract for default shall not relieve the contractor of his responsibility to meet the delivery schedule for production quantities.

2. Disposition of production lot test sample(s):
paragraph marked "x" applies

() The production lot sample tests are non-destructive and samples will be returned to the contractor at his expense on a Commercial Collect Bill of Lading. Sample units which satisfy test requirements and meet contract requirements may be delivered as part of the Contract Total Quantity.

(X) Units subject to production lot tests cannot be used to meet contract requirements. Therefore, samples tested will not be returned to the Contractor. However, in the event samples are rejected, units not destroyed during testing may be returned at Contractor's expense for disposition/examination. Request to return rejected units must be received by the testing activity within fifteen days after notification of rejection.

3. The Contractor will be responsible for all rejected production lot re-test costs. Re-test costs are \$85,740.00 (per lot for Plan A and \$17,303.00 per lot for Plan B). The Contractor is required to replace at its own cost and expense of the Contractor any unit which would be used for additional testing as a result of a production lot failure.

PRODUCTION LOT TEST SAMPLES (CONTRACTOR TESTING)

1. Test samples are required from each production lot and are to be submitted as follows:

a. A production lot shall consist of 2,880 to 20,160 flares.

(1) (X) Test samples are destructive and cannot be delivered as part of the contract quantity.

(2) () Test samples are not destructive units which satisfy test and contract requirements may be delivered as part of the contract quantity.

b. Delivery. The production lots must be manufactured and presented to the Government Quality Assurance Representative to select the production test samples. The samples shall be selected, at random, from each production lot, by the QAR within 5 calendar days after presentation of the lot. All other contractual requirements, such as acceptance, shipment, and payment will not be accomplished until the production lot test samples have been tested and approved and contractor so notified in writing from the contracting officer. Acceptance in Wide Area Workflow (WAWF) shall be considered as meeting the required delivery schedule in section F. Upon receipt of written notice accepting a production lot, shipment request to DCMA Transportation Office shall be made within 15 days.

c. Testing to be performed by the contractor and witnessed by the Government Quality Assurance Representative (GQAR).

___(1) Production lot test report is not required.

___(2) Production lot test report is required.

X(3) Production lot test report is required. Report to be forwarded to NAVSUP WSS Code N742.12 for approval.

d. The Contracting Officer shall, by written or verbal notice to the contractor within 45 calendar days after receipt of the production lot test reports by the Contracting Officer approve or disapprove the production lot test report. The notice of approval or conditional approval shall not relieve the contractor from complying with all requirements of the specification and all other terms and conditions of this contract. A notice of conditional approval shall state any further action required of the contractor. A notice of disapproval shall cite reasons therefor. Contractor shall not make any shipment of the production lot until written receipt of notification of approval from the Contracting Officer.

2. If the production lot test report(s) is disapproved by the Government (paragraph c (2)/(3) above), the Contractor may be required, at the option of the government, to select an additional production lot test sample(s) for testing. Such additional test sample shall be furnished under the terms and conditions within the time limit specified in 1.b above. The costs of additional test sample approval, and all cost related to such tests shall be borne by the contractor. Upon approval of the production lot test sample(s) submitted, the Contracting Officer will equitably adjust the delivery schedule of the contract for only the lot represented by such samples. The Government reserves

the right to require an equitable decrease in contract price for any extension of the delivery schedule necessitated by additional tests, or for any additional costs to the Government related to additional approval costs.

3. If the contractor fails to select and test any production lot test sample within the time or times specified, or if the Contracting Officer disapproves any production lot test report, the contract shall be deemed to have failed to make delivery within the meaning of the "default" clause of this contract, and this contract shall be subject to termination for default, provided that failure of the Government in such an event to terminate this contract shall not relieve the contractor of his responsibility to meet the delivery schedule for production quantities.

4. In the event that the Contracting Officer does not approve, conditionally approve, or disapprove the production lot test report(s) within the time specified, the Contracting officer shall, upon timely written request made by the contractor, make a determination of the delay occasioned the contractor thereby, and shall equitably adjust contractual provision affected by such delay, in accordance with the procedures provided in the "Changes-Fixed Price" clause. Failure to agree on any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes".

Offers that propose delivery that will not clearly fall within the applicable required delivery period specified above, will be considered nonresponsive and rejected. for first article tests. The shipping documentation shall contain this contract number and the Lot/Item identification. The characteristics that the first article must meet and the testing requirements are per specification OES-3039, Revision D.

B. Within 60 calendar days after the Government receives the first article, the Contracting Officer shall notify the contractor, in writing, of the conditional approval, approval, or disapproval of the first article. The notice of the conditional approval or approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of conditional approval shall state any further action required of the Contractor. A notice of disapproval shall cite reasons for disapproval.

C. If this first article is disapproved, the Contractor, upon Government request, shall submit an additional first article for testing. After each request, the Contractor shall make any necessary changes, modifications, or repairs to the first article or select another first article for testing. All costs related to these tests are to be borne by the Contractor, including any and all costs for additional tests following a disapproval. The contractor shall furnish any additional first article to the Government under the terms and conditions and within the time specified by the Government. The Government shall act on this first article within the time limit specified in paragraph (b) above. The Government reserves the right to require an equitable adjustment of the contract price for any extension of the delivery schedule or for any additional costs to the Government related to these tests.

D. If the Contractor fails to deliver any first article on time, or the contracting Officer disapproves any first article, the Contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract.

E. Unless otherwise provided in this contract, the Contractor:

1. May deliver the approved first article as part of the contract quantity, provided it meets all contract requirements for acceptance and was not consumed or destroyed in testing; and
2. Shall remove and dispose of any first article from the Government test facility at the Contractor's expense.

F. If the Government does not act within the time specified in paragraph (b) or (c) above, the Contracting Officer shall, upon timely written request from the Contractor, equitably adjust under the Changes clause of this contract the delivery or performance dates and/or the contract price, and any other contractual term affected by the delay.

G. The Contractor is responsible for providing operating and maintenance instructions, spare parts support, and repair of the first article during any first article test.

H. Before first article approval, the Contracting Officer may, by written authorization, authorize the Contractor to acquire specific materials or components or to commence production to the extent essential to meet the delivery schedules. Until first article approval is granted, only costs for the first article and costs incurred under this authorization are allocable to this contract for:

(1) progress payments, or

(2) termination settlements if the contract is terminated for the convenience of the Government. If first article tests reveal deviations from contract requirements, the Contractor shall, at the location designated by the Government, make the required changes or replace all items produced under this contract at no change in the contract price.

I. The Government may waive the requirement for the first article approval test where supplies identical or similar to those called for in the schedule have been previously furnished by the Offeror/Contractor and have been accepted by the Government. The Offeror/Contractor may request a waiver

Alternate I (JAN 1997)

AS prescribed in 9.308-2(a)(2) and (b)(2), add the following paragraph (j) to the basic clause:

J. The contractor shall produce both the first article and the production quantity at the same facility.

SECTION I NOTES

Disposition of first article test sample(s):

paragraph marked "x" applies

() The first article tests are non-destructive and samples will be returned to the contractor at his expense on a Commercial Collect Bill of Lading. Sample units which satisfy test requirements and meet contract requirements may be delivered as part of the Contract Total Quantity.

(X) Units subject to first article tests cannot be used to meet contract requirements. Therefore, samples tested will not be returned to the contractor. However, in the event samples are rejected, units not destroyed during testing may be returned at contractor's expense for disposition/examination. Request to return rejected units should be received by the testing activity within fifteen days after notification of rejection.

The contractor will be responsible for all first article re-test costs. Re-test costs are \$85,136.00. The contractor is required to replace any unit, at no cost to the Government, for additional testing if necessary.

52.219-28 POST-AWARD SMALL BUSINESS PROGRAM REREPRESENTATION (JULY 2013)

(a) Definitions. As used in this clause--

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause. Such a concern is "not dominant in its field of operation" when it does not exercise a controlling or major influence on a national basis in a

kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(b) If the Contractor represented that it was a small business concern prior to award of this contract, the Contractor shall rerepresent its size status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon the occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts--

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code assigned to this contract. The small business size standard corresponding to this NAICS code can be found at <http://www.sba.gov/content/table-small-business-size-standards>.

(d) The small business size standard for a Contractor providing a product which it does not manufacture itself, for a contract other than a construction or service contract, is 500 employees.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting office in writing within the timeframes specified in paragraph (b) of this clause that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

The Contractor represents that it () is, () is not a small business concern under NAICS Code - assigned to contract number .

(Contractor to sign and date and insert authorized signer's name and title).

52.223-3 HAZARDOUS MATERIAL IDENTIFICATION AND MATERIAL SAFETY DATA (JAN 1997)

(a) "Hazardous material", as used in this clause, includes any material defined as hazardous under the latest version of Federal Standard No. 313 (including revisions adopted during the term of the contract).

(b) The offeror must list any hazardous material, as defined in paragraph (a) of this clause, to be delivered under this contract. The hazardous material shall be properly identified and include any applicable identification number, such as National Stock Number or Special Item Number. This information shall also be included on the Material Safety Data Sheet submitted under this contract.

Material	Identification No.
(If none, insert "None")	

_____	_____
_____	_____
_____	_____

(c) This list must be updated during performance of the contract whenever the Contractor determines that any other material to be delivered under this contract is hazardous.

(d) The apparently successful offeror agrees to submit, for each item as required prior to award, a Material Safety Data Sheet, meeting the requirements of 29 CFR 1910.1200(g) and the latest version of Federal Standard No. 313, for all hazardous material identified in paragraph (b) of this clause. Data shall be submitted in accordance with Federal Standard No. 313, whether or not the apparently successful offeror is the actual manufacturer of these items. Failure to submit the Material Safety Data Sheet prior to award may result in the apparently successful offeror being considered nonresponsible and ineligible for award.

(e) If, after award, there is a change in the composition of the item(s) or a revision to Federal Standard No. 313, which renders incomplete or inaccurate the data submitted under paragraph (d) of this clause, the Contractor shall promptly notify the Contracting Officer and resubmit the data.

(f) Neither the requirements of this clause nor any act or failure to act by the Government shall relieve the Contractor of any responsibility or liability for the safety of Government, Contractor, or subcontractor personnel or property.

(g) Nothing contained in this clause shall relieve the Contractor from complying with applicable Federal, State, and local laws, codes, ordinances, and regulations (including the obtaining of licenses and permits) in connection with hazardous material.

(h) The Government's rights in data furnished under this contract with respect to hazardous material are as follows:

(1) To use, duplicate and disclose any data to which this clause is applicable. The purposes of this right are to--

(i) Apprise personnel of the hazards to which they may be exposed in using, handling, packaging, transporting, or disposing of hazardous materials;

(ii) Obtain medical treatment for those affected by the material; and

(iii) Have others use, duplicate, and disclose the data for the Government for these purposes.

(2) To use, duplicate, and disclose data furnished under this clause, in accordance with subparagraph (h)(1) of this

clause, in precedence over any other clause of this contract providing for rights in data.

(3) The Government is not precluded from using similar or identical data acquired from other sources.

(End of clause)

(b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR Chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation

unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of Part I of this provision.

CAUTION: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and reporting contract performance cost data.

(c) Check the appropriate box below:

(1) Certificate of Concurrent Submission of Disclosure Statement.

The offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows: (i) original and one copy to the cognizant Administrative Contracting Officer (ACO) or cognizant Federal agency official authorized to act in that capacity (Federal official), as applicable, and (ii) one copy to the cognizant Federal auditor.

252.215-7008 ONLY ONE OFFER (OCT 2013)

(a) After initial submission of offers, the Offeror agrees to submit any subsequently requested additional cost or pricing data if the Contracting Officer notifies the Offeror that--

(1) Only one offer was received; and

(2) Additional cost or pricing data is required in order to determine whether the price is fair and reasonable or to comply with the statutory requirement for certified cost or pricing data (10 U.S.C. 2306a and FAR 15.403-3).

(b) Requirement for submission of additional cost or pricing data. Except as provided in paragraph (c) of this provision, the Offeror shall submit additional cost or pricing data as follows:

(1) If the Contracting Officer notifies the Offeror that additional cost or pricing data are required in accordance with paragraph (a) of this clause, the data shall be certified unless an exception applies (FAR 15.403-1(b)).

(2) Exceptions from certified cost or pricing data. In lieu of submitting certified cost or pricing data, the Offeror may submit a written request for exception by submitting the information described in the following paragraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable.

(i) Identification of the law or regulation establishing the price offered. If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) Commercial item exception. For a commercial item exception, the Offeror shall submit, at a minimum, information on prices at which the same item or/similar items have previously been sold in the commercial market that is adequate for evaluating the reasonableness of the price for this acquisition. Such information may include—

(A) For catalog items, a copy of or identification of the catalog and its date, or the appropriate pages for the offered items, or a statement that the catalog is on file in the buying office to which the proposal is being submitted. Provide a copy or describe current discount policies and price lists (published or unpublished), e.g., wholesale, original equipment manufacturer, or reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities;

(B) For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market; or

(C) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item.

(3) The Offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the Offeror's determination of the prices to be offered in the catalog or marketplace.

(4) Requirements for certified cost or pricing data. If the Offeror is not granted an exception from the requirement to submit certified cost or pricing data, the following applies:

(i) The Offeror shall prepare and submit certified cost or pricing data and supporting attachments in accordance with the instructions contained in Table 15-2 of FAR 15.408, which is incorporated by reference with the same force and effect as though it were inserted here in full text. The instructions in Table 15-2 are incorporated as a mandatory format to be used, unless the Contracting Officer and the Offeror agree to a different format.

(ii) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2.

(c) If the Offeror is the Canadian Commercial Corporation, certified cost or pricing data are not required. If the Contracting Officer notifies the Canadian Commercial Corporation that additional data other than certified cost or pricing data are required in accordance with 225.870-4(c), the Canadian Commercial Corporation shall obtain and provide the following:

(1) Profit rate or fee (as applicable).

(2) Analysis provided by Public Works and Government Services Canada to the Canadian Commercial Corporation to determine a fair and reasonable price (comparable to the analysis required at FAR 15.404-1).

(3) Data other than certified cost or pricing data necessary to permit a determination by the U.S. Contracting Officer that the proposed price is fair and reasonable [U.S. Contracting Officer to provide description of the data required in accordance with FAR 15.403-3(a)(1) with the notification].

(4) As specified in FAR 15.403-3(a)(4), an offeror who does not comply with a requirement to submit data that the U.S. Contracting Officer has deemed necessary to determine price reasonableness or cost realism is ineligible for award unless the head of the contracting activity determines that it is in the best interest of the Government to make the award to that offeror.

(d) If negotiations are conducted, the negotiated price should not exceed the offered price.

(End of provision)

Section M - Evaluation Factors for Award

SECTION M

CLAUSES INCORPORATED BY REFERENCE

52.217-5	Evaluation Of Options	JUL 1990
52.247-50	No Evaluation Of Transportation Costs	APR 1984

EVALUATION FOR AWARD

Award will be made to the responsible offeror submitting a technically acceptable offer with the lowest evaluated price for the two years. A technically acceptable offer is one in which the offeror complies with the instructions contained in Section L of the solicitation and does not take exception, nor object, to any of the terms of the solicitation. Offers that are not technically acceptable will not be considered for award.

An offeror's evaluated price will be calculated as follows:

Base Year	Stepladder Quantity Range 50,401-108,000	X Unit Price =	Total Base Year
Option Year	Stepladder Quantity Range 50,401-108,000	X Unit Price =	<u>Option Year</u>
			Total Two Year Price

The total two year price will be the evaluated price for purposes of award unless the offeror is not waived for first article testing. If the offeror is not waived for first article testing, the Government will add the Government's estimated first article cost of \$85,136.00 to the offeror's total two year price and that sum will constitute the offeror's total two year price for award evaluation purposes.
